

Facilities for Differently Abled

This college aims to provide an inclusive education so it is very much concerned about the differently abled. It provides Divyangjan-friendly and barrier-free environment where differently-abled people can move around freely without obstacles with confidence and respect and utilize the facilities within the built environment. The pathway leading to the building is usable by all Divyangjans as ramps with steel railings, as per the specifications, have been constructed in the college at all entry points. Every floor in the college has been provided with separate washrooms specially designed for Divangjans. The accessible washrooms have fittings and fixtures which are comfortable and convenient for the Divyanjans. A sliding door and non-slip floor make

the washroom easily accessible for the Divyangjans. The reception counter gives all the required information to the Divyangjans. There is the availability of block tactile paths for vision-deficient students and staff in the entire building for facilitating such individuals. Signage has also been provided at suitable places on the campus. There is good lighting for people with impaired vision. All the pathways are clear from objects to avoid any accidents.
